New Nursery Literature

Copies of the following journal articles or publications are free and can be ordered using the Literature Order Form on the last page of this section. Just write in the appropriate number or letter on the form and return it to us. Note that there are three restrictions:

1. **Limit in the Number of Free Articles:** In an effort to reduce mailing costs, we are limiting the number of free articles that can be ordered through the FNN literature service. All subscribers will be restricted to 25 free articles per issue.

2. **Copyrighted Material.** Items with © are copyrighted and require a fee for each copy, so only the title page and abstract will be provided through this service. If you want the entire article, then you can order a copy from a library service.

3. **Special Orders (SO).** Special orders are books or other publications that, because of their size or cost, require special handling. For some, the Forest Service has procured copies for free distribution, but others will have to be purchased. Prices and ordering instructions are given following each listing in the New Nursery Literature section.

198. Media matters: physical properties of media are important and their effects on your crops are often overlooked. Bloodnick, E. and Buechel, T. Digger 22(8):44, 47. 2004.

**Literature Order Form**  
**Winter 2005**

Please fill out a separate order form for each person ordering literature. Write in the number or letter of the articles in which you are interested in the spaces at the bottom of this page. Note that we will only provide free copies of the first 25! For items that require a copyright fee, you will receive the title page with abstract and ordering instructions if you want the entire article. Fax or mail this form to:
