

This list shows, by states and class of operator, the country's forest tree (and a few other) nurseries, and their production in fiscal year 1950. That data for the publicly-owned and forest-industry-owned nurseries was gotten through various offices of the U.S. Forest Service, Soil Conservation: Service, State Foresters, etc., while that for the commercial nurseries was compiled mostly from information sent to Mr. Richard White, Executive Secretary for the American Association of Nurserymen in response to his request published in the Association's newsletter. A few others are listed from information secured directly by the Forest Service. Unfortunately, many important companies did not respond so the commercial listing is admittedly incomplete and must not be used as a measure of the commercial output of forest planting stock.

Omissions and corrections of data should be reported to the Chief, U.S. Forest Service, Washington 25, D.C. They will be incorporated in the fiscal year 1951 list which will be issued when the data is available.

SUMMARY

Operator	Active Tree Producers	1950 Production (M's)
Federal		
Forest Service	14 1)	45,277
Soil Conservation Service	14 2)	18,398
Department of Interior	-	-
Tennessee Valley Authority	2 3)	23,977
Total Federal	30	87,652
State		
State Foresters or equivalent	83 4)	330,444
Total State	83 5)	330,444
Municipal		
City of Seattle, Wash.	1	52
Total Municipal	1	52
Industry		
Paper companies	5	10,512
Sawmill and land companies	5	13,054
Total Industry	10	23,566
Commercial		
Soil Conservation Districts	4	2,900
Regular private companies	Incomplete	Incomplete
Total Commercial	Incomplete	Incomplete
NATIONAL TOTAL		

- 1) The F.S. also has 4 other nurseries which are now inactive.
- 2) These 14 S.C.S. nurseries also produce shrubs, and grasses and legume plants and seed. Twelve other S.C.S. grass and shrub nurseries which produce few or no trees are shown in the body of the list but are not included in this summary.
- 3) The T.V.A. also has one small experimental nursery which produces no forest planting stock.
- 4) The state nurseries at Painted Post, N.Y. and Sullivan, No. produce only wildlife cover planting stock and are not included in this figure although they are shown in the body of the list.
- 5) Seventy-five of these were under the C-M program.
